

OPS-0210 (10 February 2020)

Phil Rosenberg
(compiled 10.02. 12:00 LT)

1. Facility updates

- **Local logistics:** Please, if you drink coffee donate into the large box next to the coffee machine.
- **ATR-42:** Today (10/02/2020): No flight. Tomorrow (11/02/2020): Double flight, 01:30L and 07:00L takeoff times.
- **RAAVEN, BOREAL and Skywalkers:**
- **Boreal:** Boreal drone was sadly lost yesterday at around 12:58L.
- **Skywalker:** On flight yesterday in the morning, no update on future plans
- **Raaven:** No update – presumably yesterday’s status stands: Will always do the same pattern: one vertical profile up to 1000m and then legs of approx. 2km at different levels in the boundary layer.
- **HALO:** Today (10/02/2020): No Flight. Tomorrow (11/02/2020): 08:30L takeoff. Six circles then excursion to east. 9 hour duration.
- **TwinOtter:** Today (10/02/2020): Flight took off at 09:00L. Tomorrow (11/02/2020): Double flight, First takeoff at 08:30L with 3:40 hour duration. Second flight to take off after refuel, around 13:30L.
- **WP-3D:** No update, but expecting a night flight with takeoff just before 00:00L 11/02/2020 and landing at approx 08:00L 11/02/2020.
- **BCO:** All systems at Ragged Point aerosol site working as expected. No further update.
- **L’Atalante:** No Update
- **Meteor:** No Update
- **Maria S. Merian:** No Update
- **Ron Brown:** No Update
- **Autonaut:** No Update
- **CloudKite:** No Update
